*Timonium, Md.*

He knows  
it's good...

and that helps your business!

It's a good thing for livestock producers that franks and other varieties of sausage are so well liked. Of the approximately 150 pounds per capita consumption of meat in this country, **twenty-three** pounds or  $1/7$ , is in the form of sausage. And the meat used in sausage, while just as nourishing as fine cuts, could not be sold as steaks or roasts. It does not lend itself to merchandising in these forms.

So, sausage provides an important way to sell beef and pork. Thus it adds value to the livestock you raise.

Armour and Company makes **more than one hundred and fifty** varieties of fresh, smoked and dry sausage. Armour Star Franks and Armour Star Pork Sausage are made **fresh daily** at sausage kitchens near where they are sold. This not only assures freshness but enables Armour to season the product to please local tastes.

Armour, in performing services like this, helps you. That's because good service and good quality make **steady** customers. And steady customers for Armour products are steady customers for products made from the livestock you raise. Just to see why Armour has **so many** steady customers, try one of these fine foods yourself—soon!

# THE EASTERN NATIONAL LIVESTOCK

---

Livestock is an integral and vital part of the economy of the eastern part of the United States and as eastern states have industrialized and urbanized, their incomes and well-being have risen. Their agricultural economy has become largely tied to that of animals and their products. The Eastern National Livestock Show has been developed to accelerate these trends toward a livestock economy in the East and to improve both the quality and quantity of livestock production throughout the Eastern States. Naturally, any industry serving the livestock interests is also benefited by any stimulation of livestock production.

Back in 1929 the old Baltimore Livestock Show was held at the Union Stock Yards in Baltimore. Some fifty or sixty livestock producers, commission men and meat packers worked tirelessly to develop a real livestock show here in the east. The quality of livestock improved along with the quantity of production . . . thus the advent of the Eastern National Livestock Show eight years ago.

One-fourth of the nation's consumers live in the seven states supporting the show. To help feed these consumers, the Show has been developed to stimulate livestock production in the East and especially in the states from which its greatest support comes, namely: Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia and West Virginia. However, we have interests from the New England States and as far south as Florida as evidenced by memberships and exhibitors in both these widely separated areas.

Within eight years the Eastern National has made tremendous strides and is now one of the nation's leading livestock shows, sharing the spotlight with the shows at Chicago, Denver and Kansas City. Exhibitors are attracted from twenty-seven states, including Wyoming, California, Texas, Colorado, Maine and Florida, bringing with them the most superb livestock in the country. Champions selected at the Eastern National have gone on to retain their championships at the International at Chicago. Approximately 3,000 head of livestock are exhibited at the Eastern National.

As the Eastern National has grown, so has the interest in the livestock industry in the East. The Eastern National is contributing much to the strong trend toward a livestock economy in the territory it serves. It provides a medium of stimulus to the greater production of meat for Eastern consumers and also provides a special stimulus to the improvement in the quality of the animals. **THIS IS IMPORTANT!** With the industrialization and increase in population on the West Coast, more midwestern meat is going west, leaving the East more dependent on its own meat production. The quantity of eastern meat is increasing and the quality is improving. Data are fragmentary but indicate a great expansion of the livestock industry throughout the Eastern area.

The youth of the nation play a big part in the livestock industry. Therefore, the Eastern National Livestock Show is an investment in

*Continued on next page*

the future. It has become the culmination of all 4-H Club and F.F.A. livestock endeavors, not only in Maryland, but also for many exhibitors in adjoining states. The 4-H Clubs are the largest rural organization in the world. These youngsters look to us for help and inspiration. The Eastern National includes the only completely rounded out livestock and meat judging contests in the East, both intercollegiate and 4-H.

# Union Stock Yard Company

BALTIMORE 23, MARYLAND

OUR BUSINESS is the link between the **packer** and **producer** of livestock.

THE SERVICES WE RENDER are important. This is reflected in the ever-increasing daily consignments arriving at the Yards to be sold by commission firms.

Ship your livestock to a market that is served by competent commission firms; where there are buyers for all classes of livestock regardless of type or finish.

THERE ARE GREATER NET RETURNS from a market where there is daily competition among many local and out of town buyers. LET US PROVE IT TO YOU!

**SAVE  
THREE WEEKS  
BARN  
FEEDING**

*Fertilize Your Pastures Now With*

**DAYCO GRANULATED**

**PRODUCE HEALTHIER,  
MORE PROFITABLE LIVESTOCK**

By fertilizing your pastures now, you hurry up the early bite of mineral-rich grasses. You'll be able to save costly barn feeding by getting your livestock out of the barn up to three weeks earlier this Spring and keeping them out weeks later in the Fall.

By using Davco Granulated, you make the job a lot easier on yourself too. You see, Davco is put through a special granulating process that forms it into porous individually-hardened particles. So, dusting and caking are a headache you can forget—because Davco Granulated slides “free and easy” through the drill and stays right where you put it. Every part of the pasture gets just the right amount of the right fertilizer—Davco Granulated.

# Top Breeding . . .

## Demands Top Quality Feeding!

YOU can always be sure your livestock are getting the best quality feed available when you give them Southern States Feeds. Southern States feeds are made entirely of quality grains and ingredients . . . ingredients purchased according to rigid specifications and formulated to provide the greatest feeding value at the lowest possible cost.

LOOK at a bag of Southern States feed. Read the formula on the tag or ask any Cooperative Service Agency to see the formula. There are no secrets about it. And you'll find no wasteful "fillers" or hidden ingredients in the feed either. You know what you are getting in a bag of Southern States feed . . . you **know** you are getting the best.

## Constant Performance . . .

For almost 100 years, Schluderberg-Kurdle have been buying livestock in the Baltimore Market and ever since the establishment of the Baltimore Livestock Show (the predecessor of the Eastern National) have consistently purchased a large share of the livestock exhibited there.

This is in line with our policy of offering the livestock producers of this area, a ready and constant cash market, and of securing livestock of the kind of quality necessary to produce . . .
